

## Workshops

1. NOSSDAV
  - Submission deadline Feb 17
  - Workshop June 2 - 4
  - <http://nsl.cs.sfu.ca/nossdav10/>
2. MobiHeld
  - Workshop part of SIGCOMM 2010
  - <http://conferences.sigcomm.org/sigcomm/2010/mhcfp.php>

## Conferences

1. SIGCOMM
  - Covers all aspects of computer communications
  - 2010 Aug 30 - Sept 3
  - Paper deadline Jan 29
  - Max 14 pages two column 10 point font format
  - ~12% acceptance rate
  - <http://www.sigcomm.org/>
2. WWW
  - Topic include anything dealing with the world wide web definitely encompassing multimedia.
  - 4 day, (3 track?) conference
  - Website is not terribly informative
  - Nov 2 submission deadline (slightly different than past years)
  - ~15% acceptance rate
  - <http://wwwconference.org/www2010/>
3. NSDI
  - Topics include large-scale networks and distributed systems which likely encompass multimedia.
  - 2.5 day single track conference
  - ~20% acceptance rate over the years with fewer than 200 submissions
  - Abstract deadline Sept 25 (sooner than previous years), paper deadline October 2 (also sooner)
  - Acceptance notification around Dec. 18 (sooner), final papers March 2
  - Conference held in March/April, though exact dates vary
  - 2010 stats: 175 submissions, 29 accepted (16.57%)
  - Submissions should be no longer than 14 single spaced pages in two-column format
4. SIGMM (Multimedia)
  - Conference covers all aspects of multimedia, thus it's fairly narrow compared to the others.
  - ~17% acceptance rate
  - <http://www.sigmm.org/>
5. Infocom
  - ~20% acceptance rate
  - <http://www.ieee-infocom.org/>

## Journals (sort order:

<http://www.ieee.org/web/publications/journmag/journalcitations.html>)

1. IEEE Journal on Selected Areas of Communications
  - Topic varies according to specific issue
  - Submissions must be relevant to current call for papers.
  - 12 issues a year
  - Length 20 doubles spaced pages (12 point font)
2. IEEE Network
  - Broad network topic journal which encompasses multimedia.
  - 6 issues a year
  - Submissions are PDFs submitted via email which simply need to be readable, no formatting required.
  - Accepted articles have additional requirements.

- <http://www.comsoc.org/livepubs/ni/public/2009/nov/index.html>
- 3. IEEE Communications Magazine
  - Fairly broad journal covering all areas of communications.
  - 12 issues a year with specific topic call for papers, but also open submission for continual topics.
  - Submitted papers need to be readable by readers outside the article's field, not use equations, have under 15 references and be under 4500 words.
  - Final submissions require a little more work.
- 4. IEEE Transactions on Multimedia
  - Covers semi-narrow range of topics in multimedia.
  - 8 issues a year with special issues interspersed. Open submission.
  - Very strict submission guidelines. 30 double spaced pages max, additional final submission stuff.
  - [http://www.ieee.org/organizations/society/tmm/author\\_info.html](http://www.ieee.org/organizations/society/tmm/author_info.html)
- 5. Computer Communications
  - Appears to be a broad network topic journal also encompassing multimedia components.
  - Found via Almeroth's publication list.
  - Not ranked on the previous mentioned list however seems to be very relevant.
  - 18 issues per year with special issue editions.
  - Based on number of issues per year very likely to be rolling submission.
