## Our Story

In the year 2017, the US saw:

- $84.2 bn in VC funding
- 2.5 million weddings
- 284,600 conferences

Presentation skills are necessary for personal and professional success. But scientific research shows only 20% of university students are enrolled in a basic communications class, and the number is shrinking every year. [Morreale et al. 2004]

StagePresence is a novel solution for guided preparation for a speech or presentation.

Train more any time, and take your new skills with you!

Succeed on Presentation Day!

Train your skills with our personalized curriculum

Obtain analysis and feedback

Upload to Stage Presence

Presentation coming up → Record your presentation

Hone your skills and iterate on your presentation
