

Automatic Offer Categorizer (5)

Delin Sun, Xiao Sun, Danny Millstein, Winfred Huang, Jeremy Shi

Problem:

- Tedious to manually label uncategorized offers
- Advertisers want to generate better future offers

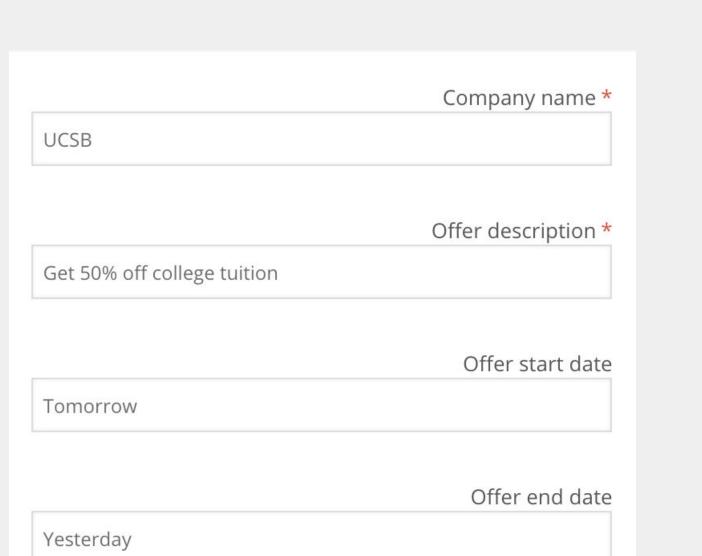

Solution:

- Automated text/image offer categorization

Potential new offers

- Performance analysis leveraging database of past offers
- Visual representation of performance analysis

Project Pipeline:

Text offer example

Image offer example

Optical character recognition

Pattern matching

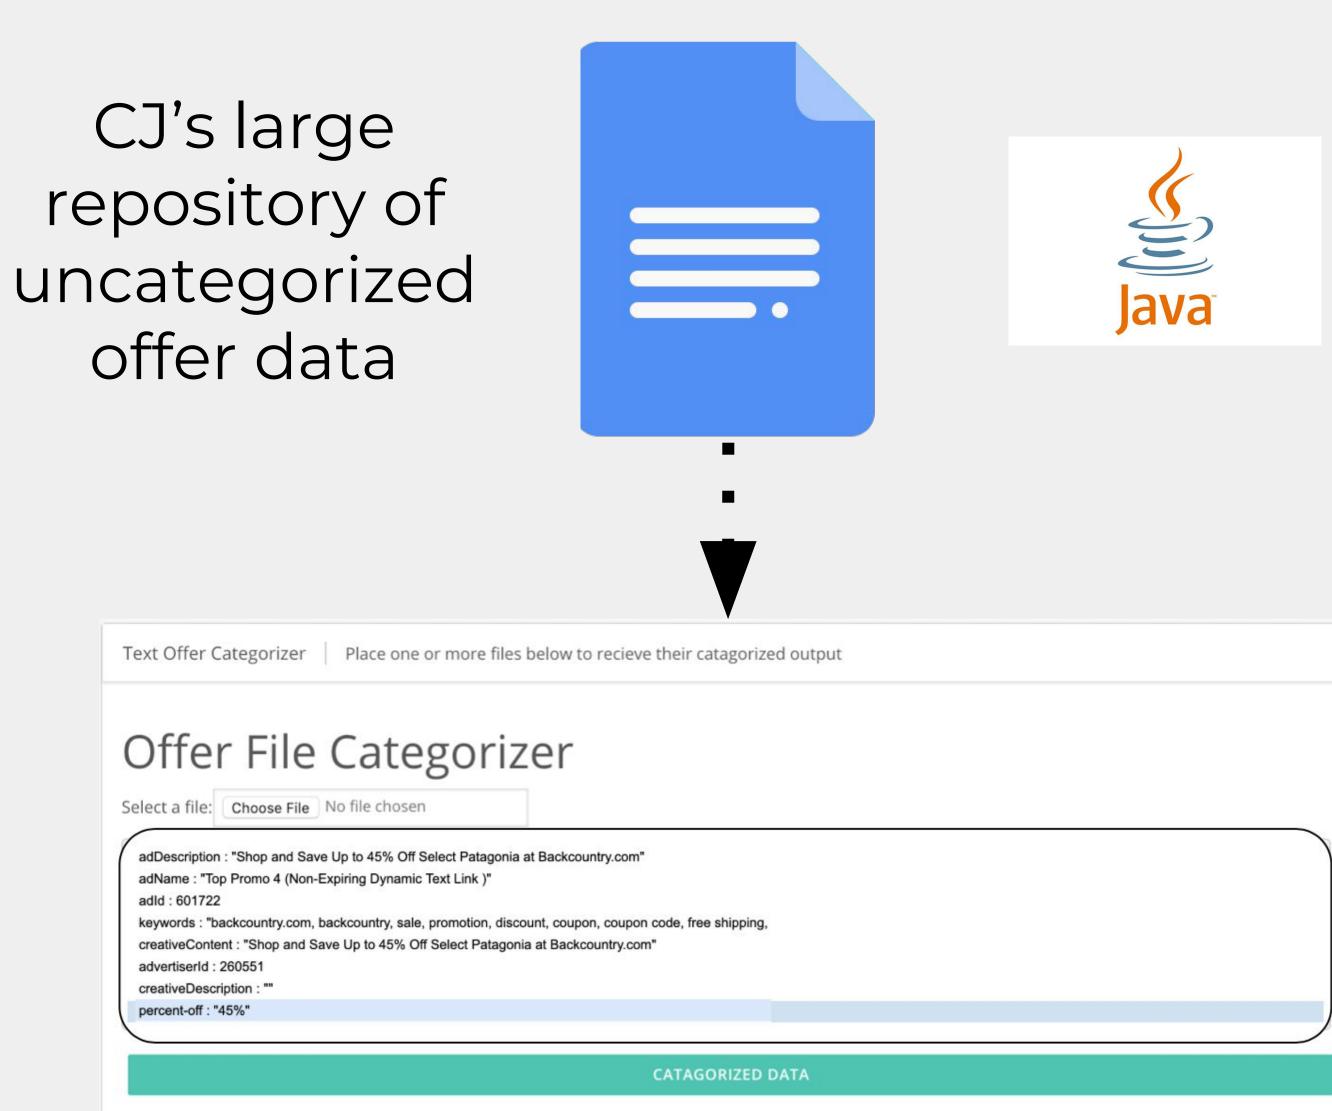

CJ's large

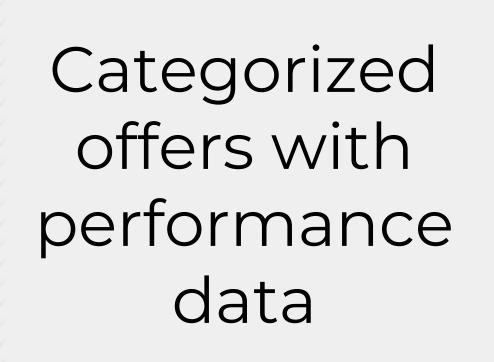

offer data

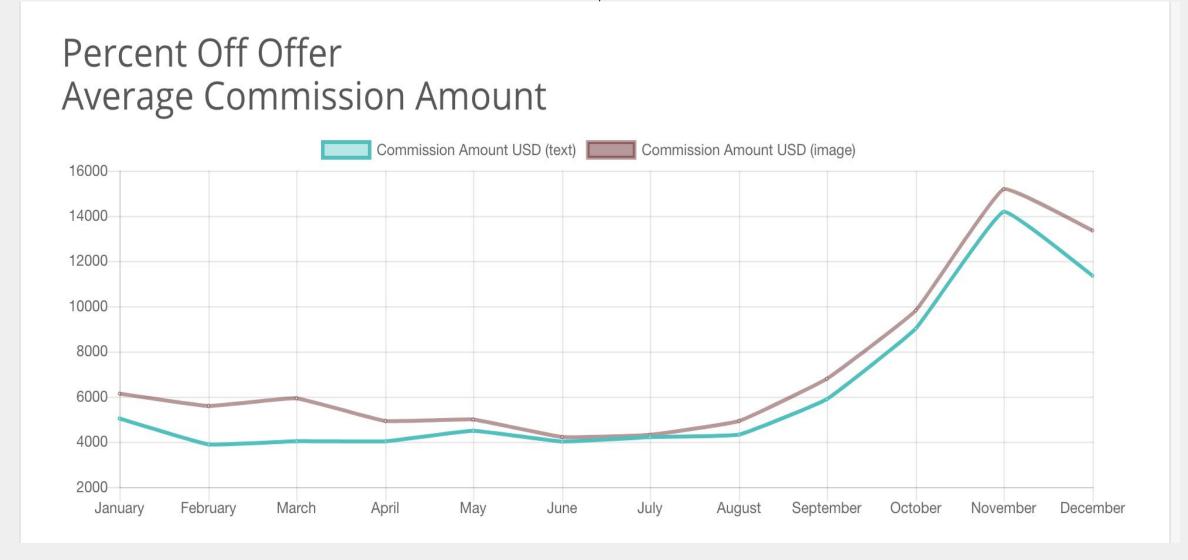

Select a file: Choose File No file chosen

creativeDescription:

percent-off: "45%"

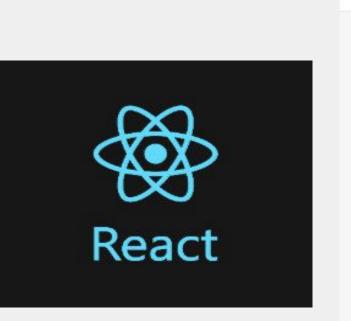

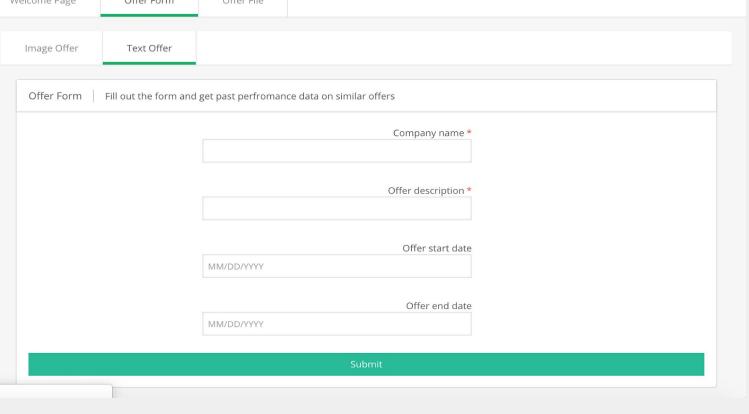

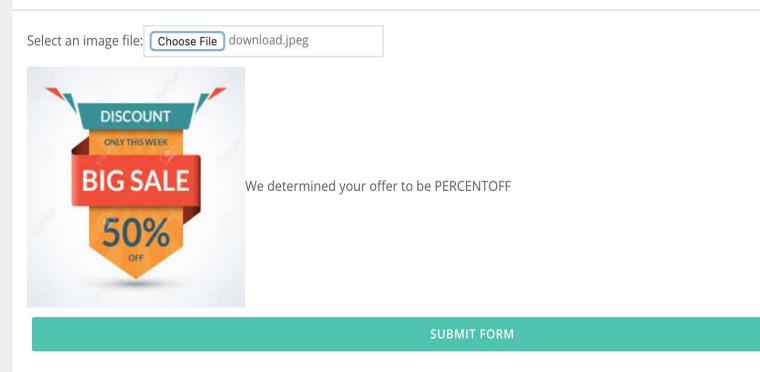

Performance analysis

User Interaction:

- Upload potential new offers as text or image

- Receive projected performance statistics based on offer properties
