

ScheduleMe

...

Eric Shen, Raul Pulido, Frank Lee,
Edward Yuen, Wei-Yee Goh

Motivation

- Long process to schedule out a service job
- Extra communication through landlord
- Lack of availability leads to a slow process

Motivation

- Can't vet out vendors (plumbers and etc,..)
- Still have to physically call and manually schedule your appointments

ScheduleMe

- All-in-one hub to schedule all things home-related
- Fast, intelligent, and automatic scheduling
- Matched vendors are trusted and/or vetted

ScheduleMe's Solution

1. Submit a service request
2. Pick a vendor
3. Select a time
4. Pick a calendar to add to

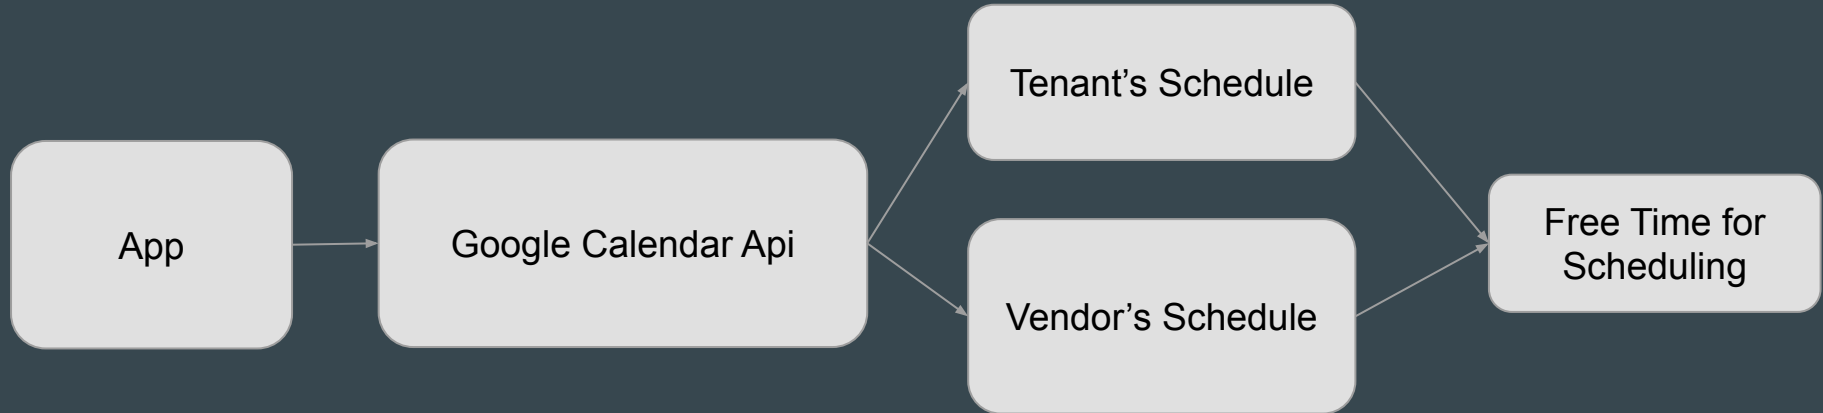

Intelligent Scheduling

- Builds around user's schedules
- Ensures travel buffer between jobs
- Minimizes total travel time

Builds around User Schedules

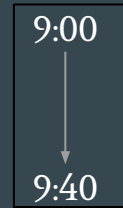

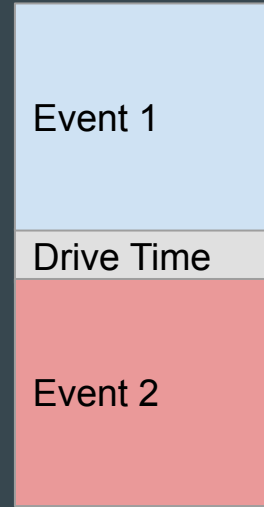

- Utilizes Google Calendar API
- Finds free time slots

Travel Buffer

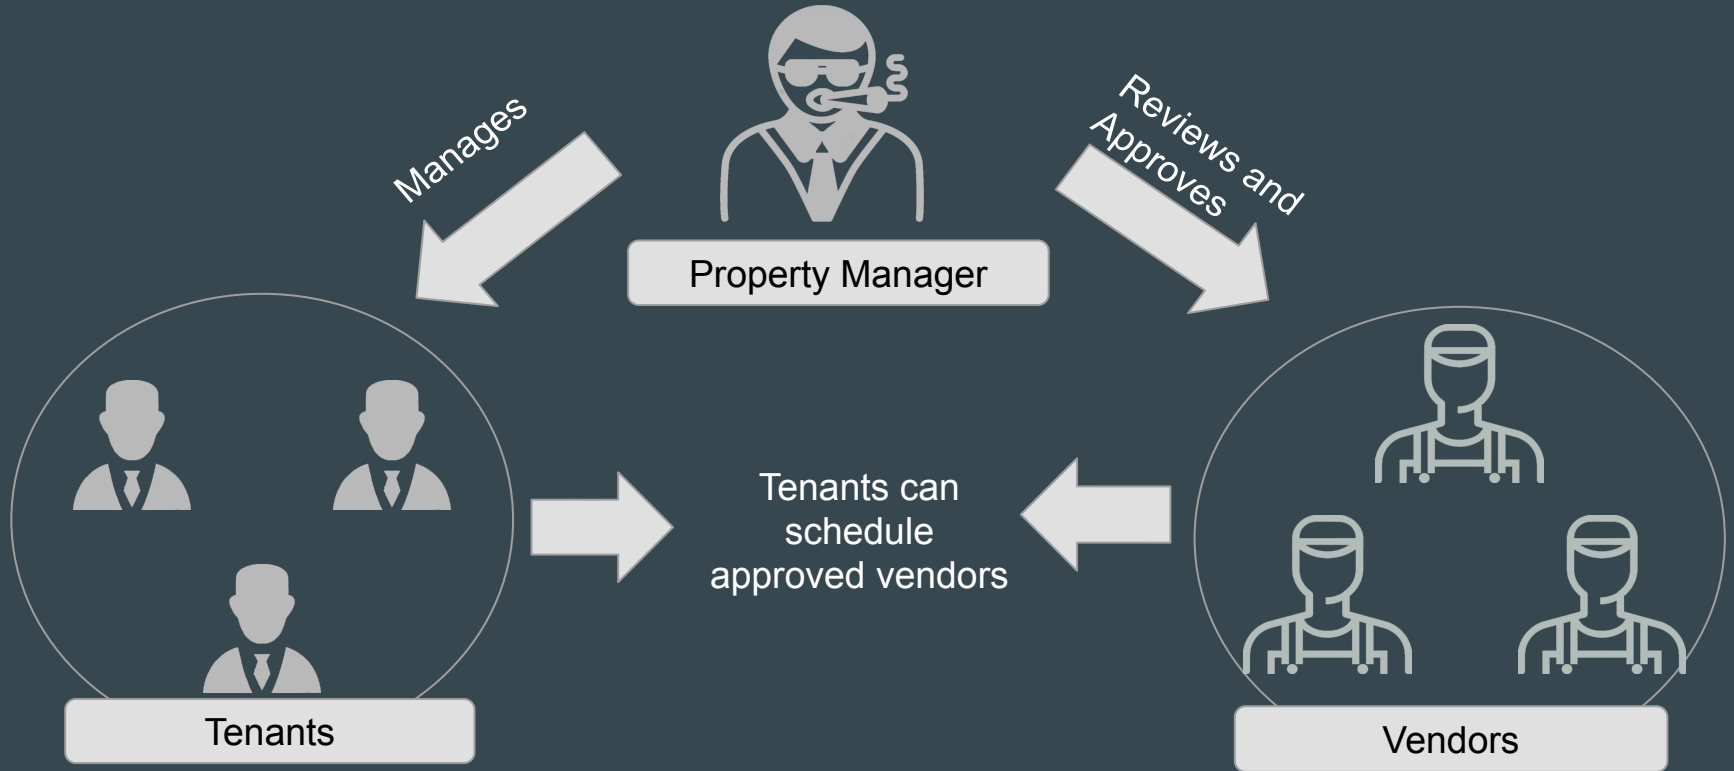

No Buffer

With Buffer

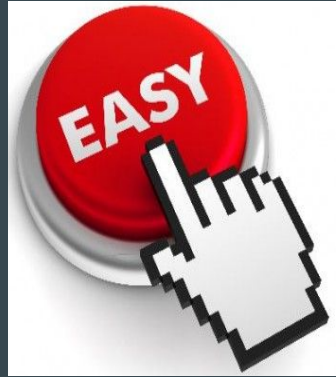

Vendor Selection Pool

Final Thoughts

Saves Time

Easy and Convenient

Saves Money
