

Problem

- Difficult to facilitate open communication
- Traditional surveys lack data analysis over time and across multiple surveys
- Little insight into team's synergy

Innovation

- Line chart of the team's mood change
- NLP breaks down:
 - Overall sentiment of the responder
 - Responder's sentiment towards mentioned individuals
- Insights on Most [~] Person
 - Positively-Viewed
 - Negatively-Viewed
 - and more ...

Entity NLP Analysis Visualization

Most Positively Viewed

Tom
Michael
Samantha
Annie

Detailed Rankings

1. Michael (score: 0.8)
2. Annie (score: 0.8)
3. Tom (score: 0.5)
4. Samantha (score: 0.5)

Slack

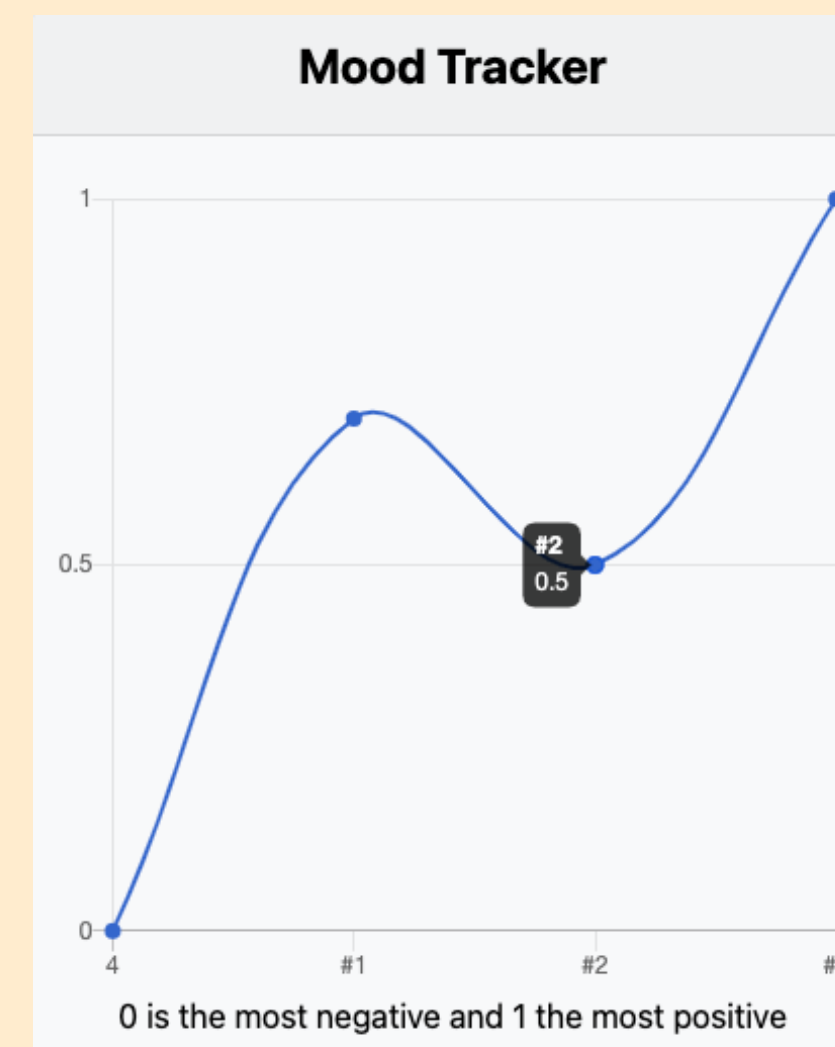

Employees

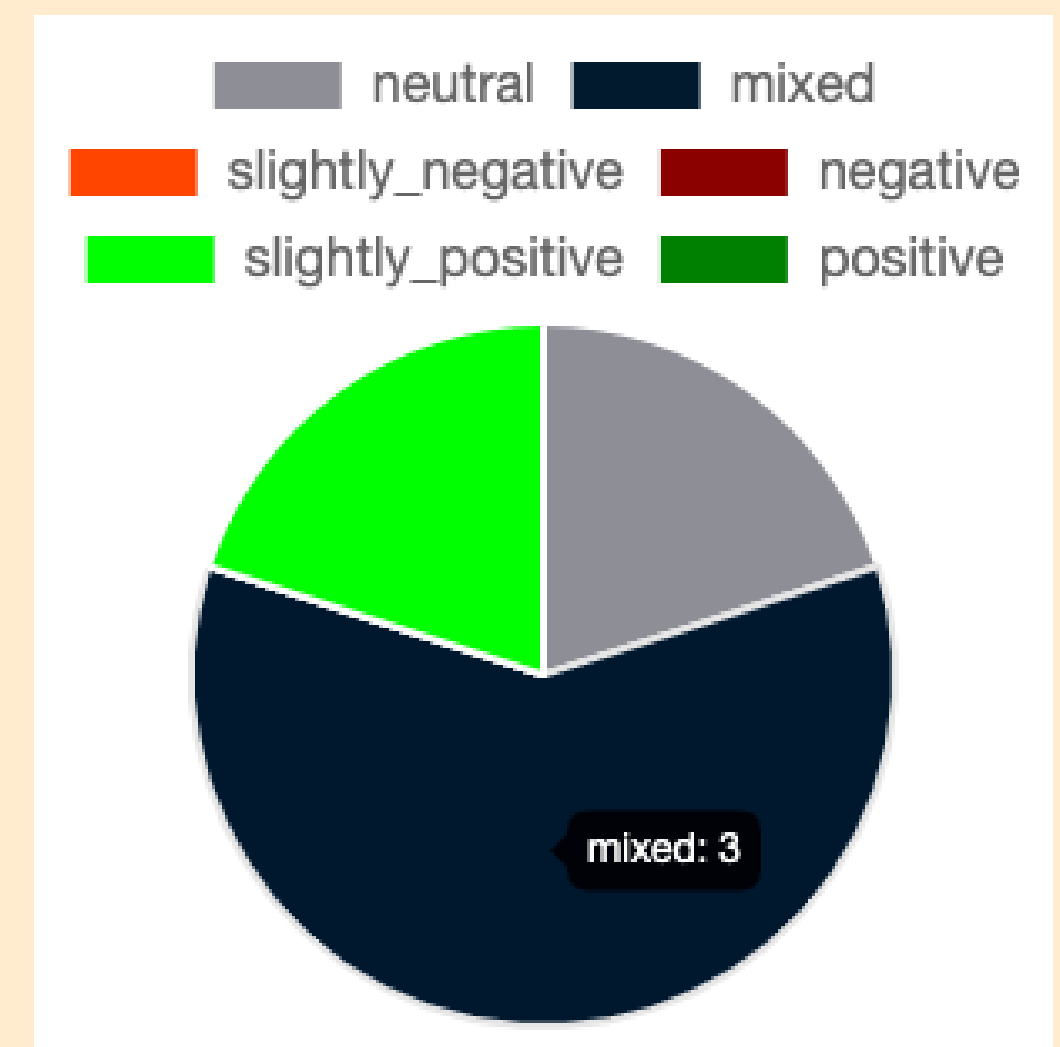

Solution

- Send surveys to your employees to gauge mood or receive direct feedback
- Observe trends over time through repeat surveys
 - NLP breaks down free response feedback to give you an overview of employee sentiments
- Surveys are sent automatically at certain intervals
