Starting this Friday – Progress Checks

• Sprint progress, including burndown chart by all members
• 8+ stories (some completed from previous sprint(s)) - prioritized and with timings if pursued in sprints
• Sufficient tasks/timings/tests for each sprint tasks for all team members, with prioritized backup tasks (next sprint) in case members complete theirs early
• GitHub commits
• Use of travis-ci
• Issue tracking in GitHub or elsewhere
• Testing of tasks + 2nd member check/test/approve of pull request
• Demos for each story completed (at end of sprint as part of sprint review process)
• Progress on the draft project writeup, including appropriate links to trello/pivotal if needed for stories (title in writeup for each)
